## INTRODUCTORY

The aim of this work is to give a complete and accurate index to the public and private educational system of the United States. The information has been thoroughly revised to date, and before final printing of the book, proofs submitted to the various school officials for final revision and correction.

In the main *Geographical Classification*, in addition to the public school officials, will be found a complete list of all schools and colleges, together with information as to the kind of school, class of students admitted, religious denomination, year established, and the name of the governing head of the institution. A second complete list of all institutions is given in the *Classified Directory* in which the schools are arranged alphabetically by states, classified according to the kind of school, giving a ready reference or complete list of any particular class of institution, together with the names of the executive officers. A complete *Alphabetical Index* of all schools and colleges will be found at the back of the book from which any institution may be instantly located.

The *Public School System* is fully covered by lists of the state educational officials and county superintendents of schools, the city boards of education, city superintendents, public high schools and principals, and the directors and supervisors of special subjects. A list of the more prominent *Libraries* with the name of the librarian and number of bound volumes, is included in the present volume. An *Educational Business Directory* is also given, which will be found

of much value to the school executive as a convenient and ready reference list of reliable manufacturers and dealers supplying every known need of the school and college.

It is believed the work will be found of value to every one in any way associated with educational institutions, or engaged in educational work. Acknowledgment is made to the various State and City Superintendents of public instruction, private school officials, librarians and others for their kind co-operation and assistance in furnishing data and information necessary for the completion of the volume. While no labor has been spared in the effort to have the work as accurate as possible at the time of going to press, continual changes necessarily preclude absolute accuracy.

School officials, librarians and others will confer a favor by notifying us of changes, and by calling our attention to any inaccuracies or omissions in any department of the work.

## COUNTY SUPERINTENDENTS OF SCHOOLS

Maine has no county superintendents of schools, but has what is known as the "Union Systems" of school supervision. The towns and cities of the state, of which there are 520, are combined into groups by the State Commissioner of Education, and the members of the school committees of the towns in these groups elect one person to serve as superintendent of schools of the group or union, devoting his whole time to that work. The only exception to this arrangement is in the case of towns or cities having more than fifty schools. These are allowed to elect a superintendent of schools to serve that town or city alone.

## SUPERINTENDENTS OF SCHOOLS

Vermont has the town system of schools. All of the schools of the state are under the direction of superintendents who give their full time to this work. In towns or cities having twenty-five or more schools the board of school directors may elect the superintendent. Other towns of the state are combined into supervisory districts. The superintendents of these districts are appointed by the State Board of Education.

## *Stainless and Changeless*

The age-long search of institutional officials for a stainless, changeless material is satisfied in Vitrolite. More durable than marble—uniformly snow-white—sanitary—cleaned at a stroke—Vitrolite and Vitrolite alone perfectly answers the exacting requirements for table tops, counters, wainscot, toilet partitions, etc., in school lunchrooms, laboratories and toilets. Alkali and acid proof.

*Samples, specifications, prices and hundreds of notable reference installations promptly on request.*

# ALBERT PICK & COMPANY

208-224 WEST RANDOLPH STREET, CHICAGO, ILLINOIS

The house of ALBERT PICK & COMPANY is the world's leading organization for the equipment of institutions and public buildings.

Because we have been supplying the needs of institutions for over 60 years we know every requirement—because we control the entire output of numerous factories we are able to have all our merchandise meet the exacting demands of public service—because we do an enormous volume of business, we are able to sell at a substantial saving.

Members of building and equipment committees, architects, superintendents and other school and college officials will find it a great convenience to consult us with their problems. Our corps of experts will lend advice or make a complete survey, without cost or obligation. We invite you to put us, our goods, our service and our prices to the test.

## Complete Equipment for Dining Halls

To prepare food correctly and to serve it well, amid comfortable surroundings and at a minimum cost, it is necessary to have suitable equipment properly arranged.

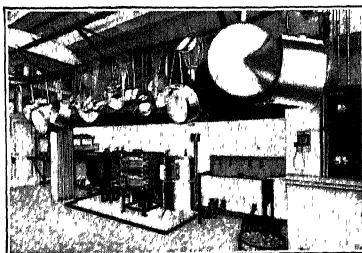

Just as you consult an architect when planning a building, just so should you refer your Cafeteria or Dining Hall plans to an expert who not only knows what is best in equipment, but can assure you economy of installation and operation.

Our experts are at your disposal, without cost or obligation. They will lend you their advice or will prepare complete plans for a scientific eating place. You will be assured of correct equipment at a cost surprisingly low.

*We can handle complete installations or the smallest supply requirement with equal facility.*

# COMPTON'S PICTURED ENCYCLOPEDIA

*10 volumes, 4410 pages, nearly 10,000 pictures (99% halftones)*

**THE ONLY ENCYCLOPEDIA WRITTEN IN  
ITS ENTIRETY SINCE THE WORLD WAR**

Compton's Pictured Encyclopedia is a revelation in encyclopedia making. It is the product of the most advanced educational thought in America. It has been prepared by those educators who are recognized as pioneers in present-day methods of instruction and who are today recognized leaders in educational progress.

Compton's is the one best answer to the teacher's constant question, "Where shall I find material?"

Already thousands of schools throughout the country have the advantage that this wonderful 20th Century help brings. Others are purchasing as rapidly as funds permit.

You owe it to your school to investigate this most modern encyclopedia.

## You Can Equip Your School With Motion Picture Equipment By Our Special School Plan

A great many schools throughout the territory in which we operate are taking advantage of our special plan for equipping school auditoriums with Motion Picture Equipment.

Any school can get Motion Picture Equipment by this plan.

### The Simplex

The Motion Picture machine that we install by this easy plan is the noted Simplex Projector, conceded by motion picture engineers all over the world to be the safest, and steadiest projector manufactured. It has the smallest fire hazard, as it is impossible to ignite more than one square inch of film. Its simplicity of operation makes it the ideal machine for educational institutions.

### The Minusa Screen

With the Simplex we install the Minusa screen of which there are nine thousand in use in the United States today. The reason for this is that it is absolutely unequalled for projection.

### How to Get Details of Plan

Just drop us a postal card or a note stating you are interested in our plan and we will send you catalogues and descriptive literature on the Simplex and Minusa Screen, also a small sample of the screen, and at the same time give you full details as to our plan for equipping schools with Motion Picture Equipment.

## When Selecting a School

Would you like the assistance of an educational expert?

The climate, the environment, and the life at the school are of equal importance with the selection of the academic course.

Miss Hayward has spent many seasons visiting the schools and camps of this country and is thoroughly familiar with their social life and educational advantages. She will recommend the special school or offer a choice of those best suited to your individual requirements.

There is no charge for this service.

## YOUR MOTION PICTURE NEEDS FILLED

Here they are—the famous DeVry Portable and the new DeVry Super Model—a battery of projectors that will fill every motion picture need.

For short throws up to eighty feet, where portability is a big asset, the little DeVry will continue to serve the school field as it has in the past.

But to augment it in those instances where a machine is to be used in an auditorium and both "still" pictures and motion pictures are to be shown, the Super DeVry will prove just the projector the school has been waiting for.

You should learn more about both models of the DeVry. Write for more information.

Adjustable Hand Screw is ad-  
opted by the U. S. Govern-  
ment, and all big institutions.  
Why? Because it is perfect in  
execution and lasts a life time.

Teach your pupils with the tool he will find in  
the work shops when through with school. The  
old style wooden screw riddled tool is obsolete.  
THE "JORGENSEN" is better in every  
particular.

## Prang-

*the first and still  
the standard*

ONE of the most important  
factors in the development  
of school art has been  
Prang School Water Colors.

Over fifty years ago Louis  
Prang produced his first box of  
water colors. The name "Prang"  
at once became a symbol of all  
that was finest in school water  
colors. A few years ago the  
American Crayon Company be-  
came the owner of these colors.  
Notwithstanding their then high  
quality, the Research and Pro-  
duction Departments of The  
American Crayon Company have  
been able to make many im-  
provements and refinements in  
Prang Water Colors, so that to-  
day they are better than ever  
before. This progress in making  
water colors of high quality par-  
allels the development of school  
art.

Containing from ten to twenty  
per cent more color value than  
any others, these colors blend  
splendidly, making smooth and  
uniform washes. There are no  
other school water colors that  
will give the rich, velvety effects  
that can be obtained with the  
Prang colors.

These colors may be had in  
seven different styles of boxes, of  
hard cakes and semi-moist pans.  
Any special assortment will be  
made to meet the special require-  
ments of school system.

## *Where Do You Buy Your Groceries?*

From our original field of activity, in the cluster of Mid-West states, viz., Illinois, Wisconsin, Indiana and Iowa, we have expanded until now there is hardly an Institution of learning, no matter of what denomination, between the Eastern Coast and the Rockies that we do not supply.

Our Patrons — and they are legion — know absolutely that the brands “Natural,” “Sunny” and “Barco” on a can or package mean perfection.

Our enviable success in this particular field has been brought about by the simple method of supplying quality products at attractive prices and paying the freight or express on all of our merchandise from Chicago to destination. Only selected vine or tree ripened fruit and unsurpassed vegetables, canned where grown, and packed in the most convenient and economical way for either dining room use or domestic science instruction are used.

All of our Jam, Jellies, and Preserves are compounded at our own plant, from choice ripe fruit and cane sugar.

We roast and blend all of our own coffee.

# VOCATIONAL GUIDANCE

Prepared by  
**JAMES MCKINNEY and A. M. SIMONS**

This is the first practical work in the vocational guidance field. It is designed for class textbook or for individual analysis. The complete service embraces an analysis of the individual based on a 32 page personal analysis blank which seeks out his mental grade and experience; a 270 page volume dealing with an analysis of all the worth-while occupations, giving steps of promotion and roads between jobs—and a complete final statement in which the capabilities of the individual are paralleled to the needs of that particular job for which his natural talents best fit him.

## ENDORSEMENTS BY MEN PROMINENT IN THIS FIELD

**Geo. P. Hambrecht, State Director of Wisconsin Board of Vocational Education:** "You are making a real contribution for more successful and practical education. Your tables on pages 10, 16, 24 and 68 are as startling and realistic as newspaper headlines. It promises a mine of useful information. I am going to make a careful analysis of the book, and use such information as can be adapted to our vocational school system in this state."

**Frank M. Leavitt, Associate Superintendent of Pittsburgh Public Schools:** "Your attempt to reach the individual is wholly praiseworthy, and it seems to me, ought to be extremely effective."

**John M. Brewer, Graduate School of Education, Harvard University:** "I am very much interested in this attention to vocational guidance on the part of your school, and the American School is certainly a pioneer in making such a definite and useful investment in the field. I am calling the attention of my students to this book."

**K. G. Smith, Michigan State Supervisor of Industrial Education:** "I should like to see such an analysis used for classifying students in night school classes and in a modified form for other kinds of educational work."

**Wm. J. Bogen, Principal, The Lane Technical School:** "I have read 'Success Through Vocational Guidance' with a great deal of interest for I have felt for a long time the need for a book of this type that might be used as a text in technical and vocational high school."

**Ira S. Griffith, Department of Manual Arts, University of Wisconsin:** "As you already know, I am in thorough sympathy with the work you have undertaken. I have read the occupational analysis of some of the types, of which I am familiar. I found these very direct, giving the chief points which one needs to know for purposes of making reasonable choice of vocation. I can readily believe that the treatment for the rest of the occupations is equally as valuable. I congratulate you on the piece of work you have done."

**Emery Filbey, Dept. Industrial Education, The University of Chicago:** "I have read 'Success Through Vocational Guidance' with a great deal of interest. The book and the personal analysis service which goes with it should afford a splendid background for choice of an occupation as well as choice of desirable training for the kind of work selected. In making available in this compact and usable form a wide range of information which can be used as a basis for careful study and personal appraisal by students contemplating correspondence study, you have made an important contribution to the vocational guidance movement. In addition to use through correspondence study this book should also be used for class reference and for general library purposes."

The complete service of "Success Through Vocational Guidance" costs \$5.00 the 270 page book, "Occupational Analysis" alone costs \$2.00. We shall be glad to send you either the complete service or the book alone upon receipt of your check or money-order. Special quantity prices are given to schools and colleges.

# THE MOODY BIBLE INSTITUTE OF CHICAGO

Founded by the great evangelist and Christian educator D. L. Moody in 1886

**Rev. James M. Gray, D.D., President**

## *Training Free*

The object of the Institute is expressed in the service rendered by its students in all parts of the world, who are pastors, evangelists, missionaries, teachers, gospel singers, Y. M. C. A. and Y. W. C. A. secretaries, rescue mission superintendents, deaconesses and workers in Sunday-schools and boys' and girls' clubs.

### **Educational Department**

This is divided into a Day School, Evening School and Correspondence School. The General Course of the Day School is covered in two years. Its enrollment last year was 1,238. Five other courses are Missionary, Pastors, Religious Education, Jewish Missions, and Swedish-English. Advanced work is taken in these courses covering longer periods of time.

The Evening School permits students to take work equivalent to the Day School, making them eligible to the same diploma, though it necessarily covers a longer period of time. A shorter course is possible, however, leading to a certificate. The enrollment last year was 861.

The Correspondence School is for those who cannot attend the Institute in person. Eight courses are offered in different methods of Bible study, Practical Christian Work, Evangelism, Christian Evidences, etc. For these a limited fee is charged. The enrollment last year was 10,047.

### **Department Extension**

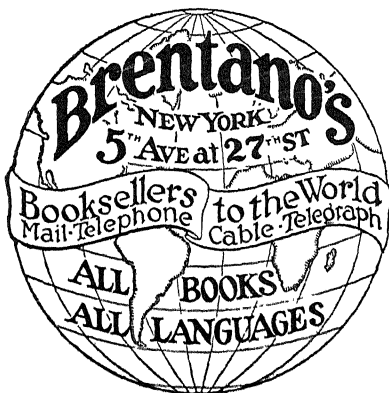

This supplies Bible teachers, evangelists and gospel singers for church and mission work, and also conducts Bible conferences, music classes and evangelistic meetings wherever called for.

### **The Moody Bible Insti- tute Monthly**

This is a periodical devoted to Bible knowledge and interpretation; news and methods of world-wide Christian work; editorial comment on current events and conditions; inspirational verse and selected miscellany. It is catholic in spirit and outlook; evangelical and evangelistic. Issued monthly, \$2.00 a year, to any address. Rev. James M. Gray, D.D., editor.
